

April 13, 2006

TO: Members of the MAG PSAP Managers Group

FROM: Chris Nadeau, Goodyear, Chair

SUBJECT: ADDENDUM TO THE APRIL 20, 2006 PSAP MANAGERS AGENDA

An addendum has been added to the April 20, 2006 agenda of the PSAP Managers Group to allow for a report on the rebanding of the 800 MHz frequency band by FCC. If you have any questions regarding the addendum to the agenda, please contact the Liz Hunt, MAG 9-1-1 Administrator, City of Phoenix Fire, at 602-534-9775, or Sarath Joshua, MAG ITS & Safety Program Manager, at 602-254-6300.

TENTATIVE AGENDA

COMMITTEE ACTION REQUESTED

16. Public Safety 800 MHz Radios and Rebanding

The rebanding of the 800 MHz frequency band by FCC has resulted in funding being made available from NexTel to support rebanding planning, design and deployment by local agencies. This arrangement has been made between the Federal Government and NexTel. There is an established schedule for submittal of the rebanding plan to NexTel, and failure for a city to submit their plan will preclude them from obtaining funding from NexTel. The deadline for the West is the end of June. A report will be provided to the PSAP Managers.

16. Information and discussion.
